

CAPABILITIES

Maxon CRS is a waterborne ANTI-CORROSIVE AGENT that stops existing corrosion and prevents future corrosion. CRS contains OXYGEN SCAVENGING PROPERTIES, which prevents corrosion from recurring. CRS is more than just a coating, it PENETRATES THE SURFACE of metal substrates up to 45 microns while containing zero VOC's, UL GREENGUARD GOLD CERTIFICATION, and works through paint, epoxies, and hard rust. CRS's penetration properties minimize your preparation and labor costs by eliminating the need for special equipment, sand blasting, or grinding.

DIFFERENTIATORS

MAXON CRS is not a rust converter:

- Does not contain harsh chemicals or acids
- Does not contain any solvents
- Can be safely used in enclosed areas
- It is a single component solution to corrosion
